

## Service Technician

**Adanac Sales** is an Independent Electrical Manufacturers Representative covering the British Columbia Market.

Due to expansion, we are currently seeking to fill an immediate open **Service Technician** position to perform the commissioning of our Commercial Lighting Control Systems throughout BC. This position may also be responsible for service and sale of additional products we represent and is not limited to lighting control systems. If you're looking for a fast paced, exciting and rewarding opportunity, we would be interested in meeting with you.

### **Job Description:**

The Service Technician role is responsible for the commissioning and programming of our commercial lighting control systems both large and small. In addition, coordinating with electrical contractors, facility managers and end users to ensure proper wiring and system installations have been completed based on the manufacturers requirements for system operation and in some cases, integration to a building BMS system. This position may also include the sale and service of additional products we represent.

### **The successful candidate should possess the following skills.**

- English language proficiency
- Excellent communication skills, the desire to be challenged every day, and a professional attitude are required
- The ability to professionally interface with a wide range of customers from contractors to specifiers
- Technical school degree, or related experience
- 2 to 5 years work experience in electro-mechanical or related field. Lighting Control Systems preferred
- Experience with troubleshooting electrical systems
- Computer networking experience a plus
- Ability to read electrical drawings
- Ability to work under time-sensitive project deadlines. (Effective time management skills)
- Willingness to travel
- Highly organized and accustomed to a fast-paced work schedule
- Strong leadership and training skills
- Work independently to accommodate the ever-changing needs and priorities of our customers
- Valid driver's license
- Troubleshoot and repair of Product installations
- Coordinate with on-site contractors and facility managers to ensure proper system installation
- Focus on lifecycle product service (troubleshooting, repair, training end-users, and upgrades)
- Serve as a technical expert for the Product

Adanac Sales takes pride in attracting and retaining the best people in the electrical industry. To do so we focus on employee development thru interactive product and skills training, a commitment to high ethical standards along with promoting an organizational culture of teamwork within a respectful work environment. We offer a competitive compensation package as well as comprehensive extended health & dental plan in addition to ongoing training opportunities.

If you believe your skill set matches the above description and are an enthusiastic, innovative, passionate and an energetic individual we would like to hear from you! Adanac provides a challenging work environment with growth opportunities. Interested applicants should forward your resume to [admin@adanacsales.com](mailto:admin@adanacsales.com)  
We thank all interested applicants however please note that only those chosen for an interview will be contacted.
